***Reasons for Allowance***

1. Amendments and Remarks filed 08 July 2009 have been entered and considered and are found convincing. Applicant's amendments have overcome the previously outstanding 35 U.S.C. §101 (independent method claims 1 and 5 are now "tied to" a digital computer) and 35 U.S.C. §112 ¶2 rejections. No outstanding objections or rejection remain.
2. Claims 1-5 are allowed. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record, alone or in combination, fails to fairly teach or suggest the method for converting a 2D image to a 3D image further comprising the limitations of receiving a user-entered depth command that assigns a first depth value to a first area, and assigns a second depth value to a second area, and generating a parallax image based on the first and second depth values as required by instant independent claims 1 and 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
